

The Gravel Path

Causeries

An age of understanding, I learn to act objective
value the reasons to get up at all
Your gravel path is covered in dead leaves and branches
someone's hiding in the trees
if I pay you will you stay a little longer
bloody miracle he was when he walked through the door
part of me wish I was him
No one is invincible, not even you
I caught you catching your breath
I long til' we talk the way we used to
Oh I must've broken your heart
An age of desecrating , all the shit we carried
with us from the start
someone's waiting in the trees, I know he came here for me
bloody miracle it was when I took you by the hand
part of me will always be there
