

# It's True (Radio Edit)

The/Das

This day is in great shape  
because I value my slow hands  
exactly the same as  
as i value my quick lines  
today is just great  
because i value my low ties  
Just exactly the same as  
I value my high lines  
The things you know dont let them poison you  
the things you got dont let them get to you  
Because the dreams you wear look pretty nice on you  
all the hopes you dare think get you up  
it's true  
The things you know dont let them poison you  
the things you got dont let them get to you  
Beause the dreams you wear look pretty nice on you  
all the hopes you dare think get you up  
it's true  
An empty jaw  
close up shot on big white teeth  
The camera pans to the left and down  
Random footage in split screen  
Back to her face  
A wedding dress falling to the ground  
It seems he has forgotten his next line  
She wants to talk it over one more time  
We're in this world  
this is our planet too  
you mean the world to me  
we got to set our spirits free  
The things you know dont let them poison you  
the things you got dont let them get to you  
cause the dreams you wear look pretty nice on you  
all the hopes you dare think get you up  
it's true  
The things you know dont let them poison you  
the things you got dont let them get to you  
cause the dreams you wear look pretty nice on you  
all the hopes you dare think get you up  
it's true  
this is our planet too  
you mean the world to me  
we got to set our spirits free  
were in this world  
this is our planet too  
you mean the world to me  
we got to set our spirits free
