Demonheart

Luca Turilli

Confutatis maledictis
Confutatis maledictisTragedy storms him when demons spare her life
And all discover she has a demonheart, demonheartFeeling trapped in with the slimy creatures
Now close to being killed
She soon revealed her forgotten sad past
First to herselfThey smelled her flesh ready to be devoured
But something happened
They moved away seeming to be frightened
Sparing her lifeShocked again she opened the gates
Of her tragic past
And bloody images came back to her mindShe remembered the old mission
The dark comet's goal beyond the suns
The flight through that black holeConfutatis Maledictis
Confutatis maledictisTragedy storms him when demons spare her life
And all discover she has a demonheart, demonheartShe lived again in some frames of sorrow
That evil journey
Planned by the Arias exploring section
To find new worldsBut all that they found beyond their system
Was the black portal
Depths of oblivion came back to their world
Once opened itArkan and the other warriors who observed the scene
Could not feel the same way now about that girlHe moved to her, taking her hand
Running fast away from his old friends
All for her, he loved herConfutatis maledictis
Confutatis maledictisTragedy storms him when demons spare her life
And all discover she has a demonheart, demonheartConfutatis maledictis
Confutatis maledictisTragedy storms him when demons spare her life
And all discover she has a demonheart
Tragedy storms him when demons spare her life
And all discover she has a demonheart, demonheart
