

I'll Never Forget You

Francis and the Lights

86 Charlie came over
He asked me for a favour
Asked me a question
Asked me to make an exception86 Charlie he came back
Said he'd been thinking it over
Says he's had a change of heart
He thinks he's made a grave mistakeBut I, I'll never forget you
I'll never forget you
You make things so easy
I'll never forget you86 Charlie he came back, he came back
Sat down at the table and for the last time
Said he's finally made up his mind
He wonders if it's not too late
It's not too late, becauseI'll never forget you
I'll never forget you
You make me so angry
I'll never forget you
