

# I Can't Wait

## Sleepy Brown

This is dedicated to the lover (to the lover)

In you... In you... In you

I can't wait, I can't wait

I can't wait, no can't wait

Leather in the summer, silk in the winter

This is such an art, where do I begin uh..

Used to sing tenor, in the church choir

Really I was flexin', but the girls they were fine

I'm the type of guy that notice subtle signs

When I cuddle mine, she ain't even tryin

To look sexy, but even if she was so what

Mother fucker grow up, don't mean to be so abrupt

But that lets me, know that she's a human being

And being human's hard, on the boulevard

Girl you got it bad, glad I'm not one

But yet you got it good, you are the hot one

But I'm Andre, Benjamin Andre to be exact

You hoped to meet a gentleman one day, well this is that

In fact, Dookie introduced at a show

About a year or so ago, I don't know, mind slips me

I'm in the southern states, you know where all the pimps be

Dressin all boogey and carryin' ugly cups

And yes you're getting booed if your shit does not get down

And yes you're getting sued by women who didn't get up

Out their seat on the bus, and feet shouldn't rust

And beat is a must, and we shouldn't lust

But we do, I'm laughin' at the calendars and clocks

Ask Scott to match the socks, what's in your +Speakerboxxx+

+Pink and Blue+, you're lolly gaggin, you're slow pokin

You got me open, you're playin wit me, darlin I'm not a toy

As if I need a baker bring's the joy, you're a kiner, the Tyner meanin the real

McCoy

I can't wait..

I can't wait, I can't wait

I can't wait, no can't wait

Ooo baby, come on

Got plans tonight  
Got plans tonight  
Got plans tonight  
Got plans tonight  
Anticipated, the love and I'm gone get it  
Till the mornin light  
Till the mornin light  
Till the mornin light  
Till the mornin light  
Come on baby

I can't wait (the way you love me)  
I can't wait (the way you touch me)  
I can't wait (I can feel it)  
I can't wait (all over me)  
I can't wait (come on baby)  
I can't wait (please come home)  
I can't wait (tonight)  
I can't wait (whoo)

For your time, you're so fine  
You're always on my mind  
Cuz baby I can't wait, I can't wait  
I can't wait, no can't wait  
I'm so glad I found you  
I just wanna be around you  
I can't wait, I can't wait  
I can't wait, no can't wait

Ooo its been too long now baby  
Lets seize the night (seize the night 4x)  
Cuz I'm gonna take you on a journey  
Enjoy the ride (enjoy the ride 4x) enjoy the ride  
Up and down (ooo baby!)  
Up and down (whoo lady!)  
Round and round (take it..)  
Round and round (whoo)

For your time, you're so fine  
You're always on my mind  
Cuz baby I can't wait, I can't wait  
I can't wait, no can't wait  
I'm so glad I found you  
I just wanna be around you  
I can't wait, I can't wait

I can't wait, no can't wait

This is dedicated to the lover (to the lover)  
In you... In you... In you

This is dedicated to the lover (to the lover)  
In you... In you... In you

So luscious she's the real deal, but even he gets ancy  
Some honeys try to +Kill Bill+ beneath the underpants see  
But patients is the virtual to being anxious, just might hurt you  
Like Mike Vick returning to the line of scrimmage too soon  
A line of nigga's tryin' get in vengeance on a full moon  
Should I play it cool, or be the one to make the first move?  
Anticipatin, and contemplatin, she got you sprong dude  
Shit, I'm fin to get her might emit her, what you gone do? (wha?)  
I tell you what, we wont be fallin for that one, two  
Just kinky sex up off in the boom boom if she want to  
And if she don't, then I'll dial another date  
That means find another face to replace, cuz I can't wait

This is dedicated to the lover (to the lover)  
In you... In you... In you  
I can't wait, I can't wait  
I can't wait, no can't wait

This is dedicated to the lover (to the lover)  
In you... In you... In you  
I can't wait, I can't wait  
I can't wait, no can't wait
