

# New Drug

## Thousand Foot Krutch

I want it, I need it  
I taste it, I breathe it  
It fuels my aggression  
And fuels all my questions I cannot conceal it  
It hits me, I feel it  
It kills me, I bleed it  
Now I believe it, I want it  
I, I need it  
I, I breathe it  
You are the new drug, I want you  
I, I need you  
I believe you  
You are the new drug I want it, I need it  
I trust it, I breathe it  
It fuels my aggression  
And fuels all my questions I cannot conceal it  
It drives me, I feel it  
It fills me, I need it  
Now I believe it, I want it  
I, I need it  
I, I breathe it  
You are the new drug, I want you  
I, I need you  
I believe you  
You are the new drug Don't hold your breath  
Don't hold your breath  
Don't hold your breath  
Don't hold your breath  
Breathe, I, I want it  
I, I need it  
I, I breathe it  
You are the new drug, I want you  
I, I need you  
I believe you  
You are the new drug I want it  
I need it  
I breathe it  
You are the new drug I want it  
I need it

I bleed it  
You are the new drug
