Ice Queen

Within Temptation

When leaves have fallen and skies turned to gray

The night keeps on closing in on the day

A nightingale sings his song of farewell

You better hide for her freezing hellOn cold wings she's coming you better keep moving

For warmth you'll be longing, nightingale

Come on just feel it don't you see it?

You better believe itWhen she embraces your heart turns to stone

She comes at night when you're all alone

And when she whispers your blood shall run cold

You better hide before she finds youWhenever she is raging she takes all life away

Haven't you seen? Haven't you seen?

The ruins of our worldWhenever she is raging she takes all life away

Haven't you seen? Haven't you seen?

The ruins of our worldShe covers the earth with a breath taking cloak

The sun awakes and melts it away

The world now opens it's eyes and sees

The dawning of a new dayOn cold wings she's coming you better keep moving

For warmth you'll be longing, nightingale

Come on just feel it don't you see it?

You better believe itWhenever she is raging she takes life away

Haven't you seen? Haven't you seen?

The ruins of our worldWhenever she is raging she takes life away

Haven't you seen? Haven't you seen?

The ruins of our world
