

# Blinded By Love

Johnny Winter

Blinded by love  
I can't see the morning sun  
Blinded by love  
I can't see that the day is done Never meant to hurt, never meant harm  
Never meant to get involved  
Never meant to hurt, never meant harm  
Never meant to get involved La, da, da, da, dai, la, da, da, da, dai  
La, da, da, da, da, da, dai  
La, da, da, da, dai, la, da, da, da, dai  
La, da, da, da, da, da, dai Blinded by love  
I can't see the morning sun  
Blinded by love  
I can't see that the day is done Look around the corner, what do I see, yeah  
Great big stone wall staring at me  
Look over yonder, what's that I see  
Great big wide world staring at me Well I was leaving town last summer  
But my friends said stick around  
And though the summer breeze was at my knees  
I stayed in this little old town Winter rolls around  
Freezin' up my brain  
Sayin' you'd better move around  
Before you go insane Summer didn't lie, winter didn't lie  
Time you gotta get away  
Summer didn't lie, winter didn't lie  
Time you gotta say goodbye Blinded by love  
I can't see the morning sun  
Blinded by love  
I can't see that the day is done Well I fell in love last summer, she begged me to stay  
It was just a matter of time 'fore the love gone away  
Tears are on my pillow, sad, broke and shy  
I wanna drink of the water but the well is going dry Look around the corner, what's that I see  
Great big stone wall staring at me  
Look over yonder, what's that I see  
Great big wide world staring at me Summer didn't lie, winter didn't lie  
Time you gotta get away  
Summer didn't lie, winter didn't lie  
Time you gotta say goodbye Blinded by love  
I can't see the morning sun  
Blinded by love

I can't see that the day is doneBlinded by love  
I can't see the morning sun  
Blinded by love  
I can't see that the day is done
