Intermission

Big Time Rush

Curtain's open up the scene...
Spotlight's shine on you and me...
Tonight..

Pretending for the crowd below..
We put on a really good show..
But it's a lie.
We can help but cause a fight..
Its the same old drama every night...
I'll walk off stage..
Cause this whole play..
Is more than I can take!!
Ohhh woahhh..
I don't want it to be over..
But we need a break before.. you break my heart..
Ohhhh...
We can't live this scene forever,
Right now you and me are better...
Better off apart..
But I'll still love you when the lights come up..
For our Intermission..
I was one foot out the door...
I couldn't play that part no more...
With you..

The chemistry just wasn't there..
I couldn't act like I didn't care...
When I do.. I do..
We can help but cause a fight..
Its the same old drama every night...
I'll walk off stage..
Cause this whole play..
Is more than I can take!!
Ohhh woahhh..
I don't want it to be over..
But we need a break before.. you break my heart..

Ohhhh...
We can't live this scene forever,

Right now you and me are better...
Better off apart..
But I'll still love you when the lights come up..
The light's come up...
Were like actors in a play..
Living out our love on stage..
You're just saying the same old lies...
To me.. yeah...
So yeah we fell off track..
But I know love with lead us back!!
I don't want it to be over..
But we need a break before.. you break my heart..
Ohhhh...
We can't live this scene forever,
Right now you and me are better...
Better off apart..
But I'll still love you when the lights come up..
Yeah, I'll still love you when the lights come up...
ohhhh woahhhh ohhhhhh!!
Baby, i'm gonna love you when the lights come up..
I'm still gonna love you when the lights come up..
Baby, I'm gonna love when the lights come up...
Ohhh woah..
For Our Intermission...
