

# Too Late

311

I've been spinning in circles  
Stuck in a state of contemplate  
By the time that you hear this it will be too late  
May not do a bit of good  
But I cannot stay in a hopeless way  
By the time that you hear this it will be too late  
Too late  
Grasping in the darkness  
Making it up as I go along  
Find what we needed  
Right when you read this  
It will be too late  
Made our way blindly for way too long  
Made our way blindly for way too long  
It's human nature's attraction to danger  
You look around but you won't see the rangers  
Just crazy acting strangers acting up major  
Acting up major  
The river cuts its way through stone  
Not through sheer force but persistence  
At the end of the day the relentless always win  
If they wanted to stop us  
Opportunity passed cause they hesitate  
By the time that you hear this it will be too late  
Too late  
Grasping in the darkness  
Making it up as we go along  
Find what we needed  
Right when you read this  
It will be too late  
Made our way blindly for way too long  
Made our way blindly for way too long  
Only thing to stop us or cutting us off of  
The road I've been told that ends in a drop off  
The universe explodes, new galaxies pop up  
New galaxies pop up  
Low on gas, going fast in the passing lane  
All the light in the tunnel was an oncoming train  
Out of sight, out of mind, now I'm stuck in a bind  
That was the end of the line  
Lick shot, king of the block  
It's going down another hard knock  
That's all you've got  
We'll turn it up in the mix  
They'll hear it loud in the sticks  
Relay the message from the downtowns  
With loud sounds we expound  
It will be too late
