Christmas Star

[unknown]

On that magic night in Bethlehem, on the birthday of our Lord
The angels sang and the heavens rang with tidings of great joy
And on that night, an ancient spark had journeyed from afar
The greatest gift that God could give became the Christmas StarTheres a light that shines on everyone
Burning brighter everyday
For the souls who search for peace on earth
Its the Christmas star that lights the wayAll the wandering flock the shepherds watched
Is still the same today
Returning every child above whos ever gone astrayTheres a light that shines on everyone
Burning brighter everyday
For the souls who search for peace on earth
Its the Christmas star that lights the wayTheres a light everyone can see
(Theres a light everyone can see)
A song for every heart to see
(Every heart to see)
Theres a light shining from above
(There's a light shining from above)
Giving everlasting loveTheres a promise in the prophecy
That wise men will behold
A son for all eternity and so the storys toldTheres a light that shines on everyone
Burning brighter everyday
For the souls who search for peace on earth
Its the Christmas star that lights the wayChristmas star, ooh, Christmas star
(Oh, the Christmas star burning brighter)
Ooh ah
(Every day)
Ooh, Christmas star
(Christmas star, ooh light the way)
Ooh ah
(Christmas star that lights the way)
