

Chi-Town

The Crips

[Verse 1] Just make sure my pinky ring clean, bitch!

Oh, I kick game like Ronaldo, that's my goal

No script for some pimp shit, nigger that's my role

So if the dice shows seven, that's my point and if I roll eleven, then I roll a joint!

Pimp shit, door cracking watch my shoe show

They hit a button by the wheel and watch the roof go

Bullshit, I'll be on my hugo.

We all getting to this money, don't care who go

Big place, I like my shit well done

Thanks for giving me nothing, you're all welcome!

I made mine started from the bottom up

I mean all this cash from a dollar up!

What? that's paper like a print machine

See me cruising through the city in that pimp machine

You know i ride regular no regular

Dot after dot after dot, etcetera.

[Chorus]

That's your girl, she got a battery in the back,

You should learn how to control her

Cause one night with the taylors you think you'd get her back

Homie no sir, we gonna have a good time, good time , good time

That's what i show her! (oh, oh, oh, oh)

We're in the back riding, chauffeur!

[Verse 2] Remember we wasn't getting it, now we're getting it all

Stand on top of my work nigger i'm on my job

Same nigger i've been, throwing that alley-oop

From the corner to the world racing on rally coops.

Lee roy, shown off, couple papers roll up

Hit the clutch and spin the wheel, when i do a donut

My best physical year, my birth stones and a cheer take a chick and give her back after i get mine yeah!

Homie, that's called game I learned that from some players with 'em whole things

Four finger rings and 'em gold chains

Pimping like a mother fucker posed to

Tell me who you're supposed to be huh

Dressing up like somebody you're not suit on I'm like broke, pimping in the spot. chuch I see who you wanna
be

Change the channel your girlfriend a tv!

[Chorus] That's your girl, she got a battery in the back,

You should learn how to control her
Cause one night with the taylor's you think you'd get her back
Homie no sir, we gonna have a good time, good time , good time
That's what i show her! (oh, oh, oh, oh)
We're in the back riding, chauffeur!
