Let The First Wave Rise

Soilwork

First the silence, then the chaos
Pieces burn end up flickering light
First the unchain, then the killing
Make your demons surrender tonight

If you're looking for gods beneath the dying sun
No one eating your soul before it comes undone

There's no one here to guide you
There's no one here to bring you home

Let the first wave rise
Let your weakness outside
Let the first wave rise
LET-IT-RISE

First the symptoms, then the sickness
Laugh your ass with your own trembling dance
First the victim, then the weakness
Well, it's too late to make your own end

If you're looking for the proof behind your dying flesh
In the shadow find the answers that you once possessed

There's no one here to guide you
There's no one here to bring you home

Let the first wave rise
Let your weakness outside
Let the first wave rise

First the silence, then the chaos
First the silence, then the chaos
First the silence, then the chaos
First the silence, then the chaos

Let the first wave rise
Let your weakness outside
Let the first wave rise
