# Something New

## Secret Weapons

Hello, mister
Welcome to your life
The big man works you to the bone
He said, "Sit down and listen
Fix your suit and tie
And never dream of something more"We're all running with the wolves now
We're all running with the wolves now
I take my chance cause there's nothing left to lose
I want something new
I want it, I want something new
I want it, I want something
So good that I can't deny, oh, it feels so right
I want something new
I want something new
Can't find the reason I stay up all night
Oh, there's a stirring in my soul
I fit the pieces to my mixed up mind
I'm in with the new, I'm out with the old
We're all running with the wolves now
We're all running with the wolves now
I take my chances, there's nothing left to loseI want something new
I want it, I want something new
I want it, I want something
So good that I can't deny, oh, it feels so right
I want something new
I want something new
It's driving me crazy
I'm stuck like stone in yesterday
I just want a taste
Ooh, it's so cruel
It's driving me crazy
I'm stuck like stone in yesterday
I just want a taste
I'll be doin' whatever it takes
I want something new
I want it, I want something new
I want it, I want something
So good that I can't deny, oh, it feels so rightI want something new
I want something new

I want it, I want something new
I want it, I want something
So good that I can't deny, oh, it feels so rightI want something new
I want something new
I want it, I want something new
I want it, I want something
So good that I can't deny, oh, it feels so rightI want something new
I want something new
All I want, all I want, all I want is something new
All I want, all I want, all I want is something new
All I want, all I want, all I want is something new
All I want, all I want, all I want is something
I want something new
