Looking for a Friend

Jerry Leger

Peddle down to the river
Draw some pictures in the sand
Look on over the water
For the sight of another's handOh please show me a face
One that's not my own
All I see on top of the water blue
Is the same face I've been bringing homeI'm looking for a friend
A friend to runaway with me
Three-thousand miles and we'll never go back
We'll fade on the trembling sea
You and meSee 'em in downtown bars
Hear 'em in uptown rooms
Spend all their time on good old chums
How about somebody new
'Cause I'm tired of talking to myself
Tired of drinking all alone
I want to commit a full day of crimes
And share it with someone closeI'm looking for a friend
A friend to runaway and soar
Climb aboard an old iron horse
Ride that train and never be bored
You, me and the worldIn my dreams I do it over
I'm back where it all began
Fifteen and restless
With my first and only friendI'm looking for a friend
A friend to runaway with me
Three-thousand miles and we'll never go back
We'll fade on the trembling sea
You and me
