Puppy

Netsky

Why won't you hold me,
Why won't you care,
Falling back into the memories,
But we can only live today.All the realms in one direction,
Colours changing the light of day,
Our lives are one big highway,
And we can only live today.We can only live today
We can only live todayWe can only live today
We can only live todayWe can only live today
We can only live todayWe can only live today
We can only live todayWe can only live today
We can only live todayWe can only live todayWhy won't you hold me,
Why won't you care,
Falling Back into the memories,
But we can only live today.All the realms in one direction,
Colours changing the light of day,
Our lives are one big highway,
And we can only live today.(We can only live today)
We can only live todayWe can only live today
(We can only live today)We can only live today
We can only live todayWe can only live today
We can only live today
