

# All This Time (Modestep Remix) [Preview]

[Ryan Keen](#)

I caught you running through my head again  
Trespassing in my mind  
and stealing all my thoughts away  
you do it all the time now  
thought i built my walls high  
you still broke them down  
I will lock the gates again.

But they cant keep you outAll this time  
I never knew love was blind  
the devil in you unkind  
coz you were always on my mind.

I lost myself in the past again  
I tried to bring it back  
but second time was just not the same  
the foundations still had cracks  
though we tried to build a bridge  
The gap was just too far  
and i watched it all fall down.

Now i dont know where you are. With every passing day  
I feel the distance in my heart  
and every silent hour is just pushing us apart.  
with every thats done  
and with all all that been said  
i still hear a distant sound  
its your voice inside my head saying  
All this time

I never knew love was blind  
the devil in you unkind  
coz you were always on my mind.All this time  
I never knew love was blind
