

# We Are 540

## Stay True

WE ARE 540  
We came here for something, we won't leave with nothing  
There's no holding back this time  
We're breaking the silence with all who stand by us  
We'll build this scene back up  
I feel my stomach churning at the thought of us falling apart  
This is our fight, this is our war, this is our scene  
I know we'll never give up, fighting for it until the end  
Where will you be when we make our stand?  
Stay together, watch us grow  
Stray apart, and we'll have nothing to show  
This is who we are  
This is our scene  
A scene divided cannot stand  
So get up, stand up, let's fight for what we want  
'Cause without each other, we'll never last  
I know we'll never give up, fighting for the scene we love  
This is our home, these are our brothers  
This is our family  
We have to stay together, A scene divided cannot stand  
Where will you be when we're taking over?  
Stay together, watch us grow  
Stray apart, and we'll have nothing to show  
This is who we are  
This is our scene  
A scene divided cannot stand  
So get up, stand up, let's fight for what we want  
'Cause without each other, we'll never last  
This is our final stand, so stand up for it all  
This is our final stand, so stand up tall  
DON'T HOLD BACK  
We are 540
