Not Like Them

Serina Pech

One day I fell into the Ocean and
then I surfaced
Just thanked God I was alive
Someday you'll wake up and find
That all your truths were just lies

Ooo Ooo

Think that I know
Wooah
Think that I know
Think that I know
About you

Ooo

Cause you're not like the others though
You're not like you friends
Cause you're not like everyone else
Keeping up with all the latest trends
And that's why I think you're the best

Why do my thoughts of you allude me?
The facts there were misconstrued
But then again I barely know you
Wonder if you think of me too

Wonder what you're doing now
I feel I know someway, somehow
Ride a bike or climb a mountain
I would give you the stars and moon
give you the stars and moon

Cause you're not like the others though
You're not like you friends
Cause you're not like everyone else
Keeping up with all the latest trends
And that's why I think you're the best

I see behind your eye curtain

but that's okay
Cold wars were never cool
like me

Yes I'm so cool, and I'm so fine
But babe when I'm with you I think I'm die
in your arms tonight

Ferocious, Precocious,
I'll kill you with my killer smile
No guns or lasers required
Cause I'm in Love

Cause you're not like the others though
You're not like you friends
Cause you're not like everyone else
Keeping up with all the latest trends
And that's why I think you're the best
