

# Totally Confused

Beck

I'm totally confused by you  
I'm totally confused by you Ten foot man makin' my lunch  
You'll never understand  
I want you so much And I never, never want it  
And I never, never want it  
And I never, never want it  
And I never, never want it I'm totally confused by you  
I'm totally confused by you Screamin' in my face  
Whisper in my ear  
Put me in a suitcase  
With the can of beer And I never, never want it  
And I never, never want it  
And I never, never want it
