Baby Night Eyes

Marc Almond

Don't shut your eyes
When they're lighting up the skies
I just want to see them shine
And I cannot take my mind off youHalo of fire
In my heart there is a choir
And it's singing of desire
And I'm watching everything you doHey!
Let's make a love impact
With hard hard kisses
And a cruel attractionLet's watch our love implode
We're two near misses
On a dangerous roadWe've gotta go slow
You've an acetone smile
And you curl it in styleBaby night eyes
Stone, stoned look
You're a mystery bookBaby night eyes
Troubled and shined
I've a diamond in mindBaby night eyes
You're a scorpion sting
A little dragon with wingsBaby night eyesDon't shut your mind
Because if you do you'll find
I'll be standing right behind
And I won't be very kind
To you
NoFor a rainbow of gold
I'll be standing in the cold
I'll be waiting to be told
'Cause I've gone and sold my love to you
Yes I haveHey!
Let's make a love impact
With hard hard kisses
And a cruel attractionIt's all gone hazy, love's gone crazy
It's all gone crazy, love's gone crazy
It's love, it's love gone crazy...
