

White Wedding

Timbaland

Oh, oh, oh oh

Oh, oh, oh, oh

Oh, oh, oh oh

Oh, oh, oh, oh

It's a great day for a white wedding

Oh, oh, oh oh

It's a great day for a white wedding

Oh, oh, oh, oh

It's a great day for a white wedding

Oh, oh, oh, oh

It's a great day for a white wedding

Great day (great day)

It's what we do best (best, best)

But I got this craving (craving)

For the? down my chest

(But I love) the world, the world

Timberland is the vindicator to win

I can't forget!

All girls (all girls), do what you do, do better

And that this:

Bridge:

Move that body, move that, move that body!

Move that body, move that, move that body!

Move that body, move that, move that body!

Move that body, move that, move that body!

Here we go:

Chorus:

Pump it off this time now!

Make your love resound

Scream 'till you break your vocal parts

Now let me hear it now, now, let me hear it!

A little, little, a little, a little more, more

A little, little, I love when I hear it loud

A little, little, a little more!

It's crazy! No sleep, no rest

It's crazy, it's what we're about to get!

(I think you should) take notes, because I'm not finished yet

(I'm talking with) all girls (all girls),

Do what you do, you do best

And that this:

Bridge:

Move that body, move that, move that body!

Move that body, move that, move that body!

Move that body, move that, move that body!

Move that body, move that, move that body!

Here we go:

Chorus:

Pump it off this time now!

Make your love resound

Scream ?till you break your vocal parts

Now let me here it now, now, let me hear it!

A little, little, a little, a little more, more

A little, little, I love when I hear it loud

A little, little, little more!

I love when I hear it real!

I love when I hear it real!

I love when I hear it real!

A little, little, a little, a little oh, oh
