[Dr. Acula](#)

What I've become is what you'd never want to see me be.
I live a life thats full of filth disgrace and apathy.
I travel down a road that's paved and made with this disease.
So, I'd advise don't waste your time and try to save me.
I am the perfect product of the wrong place and time.
I'd rather die than try to better my life.

There is nothing in everything, I see nothing in anyone.
Now do you blame me for my lack of faith?
Ignorance is my best weapon. Ignorance is my best weapon.
And I will use it til the day I fuckin die.

So what the fuck did you think?
Did you think there was more?

What I've become is what you'd never want to see me be.
I live a life thats full of filth disgrace and apathy.
I travel down a road that's paved and made with this disease.
So, I'd advise don't waste your time and try to save me.
Innocence, I gave up long ago.
Innocence, it means nothing to me.
So, what the fuck did you think?
Did you think there was more?
