

# Angel Dust

## Sodom

Living, running  
Out on the streets at night  
Searching, hoping  
For the right connection because I  
Need it, want it  
You know I've got to have it  
Takes me higher  
Than anything I know Angeldust  
Need a shot to see me through the day  
Angeldust  
Want a lot I've got to get away I live my life  
Like there is no tomorrow  
Take no chances  
I'm drowning  
All my sorrows because I  
Need it, want it  
You know I've got to have  
Takes me higher  
Than anything I know Angeldust  
Need a shot  
To see me through the day  
Angeldust  
Want a lot I've got to get away  
I've got to go Laughing, crying  
Every night and day  
I know  
You know  
That I'm a different man because I  
Need it, want it  
You know I've got to have  
Takes me higher  
Than anything I know Angeldust  
Need a shot to see me through the day  
Angeldust  
Want a lot I've got to get away
