

The Stalker

Dj Thera

Thought you wanted, thought you wanted

I thought you wanted to save me

Now, you got it, what you wanted

Now, you're driving me crazy

You don't know me, never met me

But I know that you'll like me

Now, I'm comin', now I'm comin'

I hope that you like me

Gonna come undone

(Got your address)

Got to keep me from

(Where you live)

Like a lost street bum

(Got your number)

They call me, they call me stalker

Thought you wanted what you wanted

I thought you wanted to save me

What you wanted, now you got it

Now, you drive me insane, yeah

You don't know me, never met me

But I know that you'll like me

Now, I'm coming to your party

But you didn't invite me

Gonna come undone

(Got your address)

Off the T.V. from

(Where you live)

Like a lost street bum

(Got your number)

They call me, they call me stalker
