

Bored to Death

Iron Reagan

Spend the rest of my life waiting for death
I don't give a fuck either way what's coming nextIt can't come fast enough please God take me out
If given the option I would have opted out
I'm already at my end there's no doubt
If given the option I would have opted outYou can't save me
I would have opted outI won't save me
You must think that I'm sick praying for death
I don't give a fuck I've lived long enough show me what's next
Bored to death!
