Stay

Catie King

I'm desperate for your touch
It's begging me near to you
And the hours on the clock
Are breaking me near in twoSo please won't you stay
Let the time slip away
At least wait for the storm to pass through
It's a long lonely way
But I mean when I say
That all that I need is youSo stay
Just stay
We'll fight this cold night
Here with you I'm all right
So stay
Just stay
you're all that I want
let the world on it's way
just stayI need to breathe you in
A fire in my veins
And to watch you leave again
Is driving me insaneSo stay close don't go
And leave me here all alone
Wishing that I had gone too
You're all that I know
And I think my eyes show
That all that I need is youSo stay
Just stay
We'll fight this cold night
Here with you I'm all right
So stay
Just stay
you're all that I want
let the world on it's way
just staySo stay
Just stay
We'll fight this cold night
Here with you I'm all right
So stay
Just stay
you're all that I want

let the world on it's way
just stay
