Inside My Room

2 Skinnee J's

Chorus
Close the door and turn the lights low
Take a second take life slow
Listen to the sirens in the night's glow
Insidie my roomClose your eyes and let time stop
Unwind and let your mind pop
And just smile while the bomb drop
Inside my roomi got 4 walls around a 12 foot kingdom
it's where my heart's at, it's where i sing from
my land where my fates are smilin,
come on in and i'll grant you asylum
posters on the wall anounce a better way
pictures on the shelf recall a better day
the monster in the closet turned out to be a friend of mine
so now it's cool we're tight, i mean we're hangin' out like all the time
coast to coast i'm known to roam
renouned mostly for nouns and verbs as i spit sound
and my flights of fantasy race round reality
chase down insanity here where i hit ground
and it's bound to be almost profound to me
to be sound asleep beneath my roof, between my sheets
it makes me pause, count blessings, learn lessons
stop stressin' for a second, then i get back to busy streetsCHORUS
