

Intergalactic Radio Station

[Vangelis](#)

"I've, seen things..
..so many things that you can't believe.Past designs, future designs,
Cables in the bend.
Second-hand sounds,
Future sounds,
Synthesized dialogues.
Incomprehensible software.
Hi Jon, let's break some rules!
Here comes the sun.
We're doing some recordings later
Same ol' factory you know
Here's some names for you,'polyester landscape,
Nylon oxygen,
Ashes to concrete.'
Etcetera.....etcetera....
Etcetera....."oh, by the way,
It's been a beautiful morning,
What a morning,
Great morning,
It's a great morning man."
