

# Best Laid Plans

## Niacin

You don't like it in the shadows  
but you won't let me shine a light  
I would wash away your troubles

But it seems

The more that I hold on  
The more that you let go  
And I know, you better let somebody love you  
or find yourself, on your own  
Tell me why all the best laid plans  
fall apart in your hands  
And my good intentions never end,  
the way I meant  
If we don't talk about the future

Then should I just, follow you into the dark  
Yeah, and does your silence keep you cold  
While the cracks form on my heart  
Tell me why all the best laid plans  
fall apart in your hands  
And my good intentions never end,  
the way I meant

It seems to me some fine friends have watched you turn your back  
It seems you only want the things that you can't have.  
Tell me why all the best laid plans  
fall apart in your hands  
And my good intentions never end,  
the way I meant
