

# Love Makes Things Happen

## Pebbles

Deep in the heart  
Love has many ways  
Of touching your emotions  
Taking control of you  
And even in thought  
Love can make you change  
There's no way of controlling love  
When it's part of you Well you could be a married man  
With two kids and a good woman  
And you could give your heart and soul  
I swear it don't mean nothin'  
'Cause love can pull you deep into a spell  
It will spin your mind around like a carousel I'm telling you love  
Boy, makes things happen  
You never know where it's coming from  
You never know who you're gonna love  
I'm telling you love  
Makes things happen  
You never know what you're gonna do  
When ever true love takes hold of you There's never a time  
'Cause love will let you know  
Love appears at the worst  
And even the best of times  
Takes over your mind  
Your heart is not your own  
There's no way of controlling love  
It controls your life Well, you could be a faithful girl  
With a good heart and good intentions  
And you could never leave your home  
I swear there ain't no preventions  
'Cause love can pull you deep into a spell  
It will spin your mind around like a carousel I'm telling you love  
Boy, makes things happen  
You never know where it's coming from  
You never know who you're gonna love  
I'm telling you love  
Makes things happen  
You never know what you're gonna do  
When ever true love takes hold of you There's nothing love can't make you do

When love takes hold of you  
You can have the purest heart and the finest attitude  
But I swear that don't mean nothin'  
When your heart's under the spell  
It will spin your mind around like a carousel I'm telling you love  
Makes things happen  
You never know where it's coming from  
You never know who you're gonna love  
I'm telling you love  
Makes things happen  
You never know what you're gonna do  
When ever true love takes hold of you You never know  
You never know it  
You never know  
You're never gonna know it, baby  
Who you're gonna love  
Who you're gonna love, baby You never know  
You never know it  
You never know  
You're never gonna know it You never know  
You never know it  
You never know  
You never, never, never, never, never know  
No, no, no, no  
You never know You never know  
You never know it  
You never know  
You never, never, never, never, never know  
No, no, no, no  
You never know I'm telling you  
You, you, you never know  
You never know  
You never know it  
You never know  
You never, never, never, never, never know  
No, no, no, no  
You never know
