

# Utilitarian

## Spoon

Catacomb, be my security  
Count it off, be my big sister  
I walked forty-six blocks  
You've been putting it off, but come on I got meat in my arms  
I got steel in my teeth, so, come on  
Making out, taking out  
It's utilitarian Heartache, adulate, the utilitarian  
Oh, yeah, we're in love  
With this perverted world, so, come on  
When I walk down the steps  
Im just halfway across the world
