

Suffer

Sevendust

Slip and give a fake
Let you feel a little stronger
My eyes awake
You think I'm rollin' over You wonder how I feel
Now that you're under
You can't breathe
Can't hold it any longer I'll, I'll make you suffer Fear is your only reason
You never thought
That you'd see me in another season
Now I feel the need to make you suffer Now you see the face
Of the one that took you over
You can't believe
How it ended up, you stumble I'll never let you have a chance
Now you wonder
You can't breathe
Can't hold it any longer Fear is your only reason
You never thought
That you'd see me in another season
Now I feel the need to make you suffer Fear is your only reason
You never thought
That you'd see me in another season
Now I feel the need to make you take it Think what you want, I've always seen
The shade of your color scheme
I cut through your bullshit talk
I stomp on your ***** up walk Fear is your only reason
You never thought
That you'd see me in another season
Now I feel the need to make you suffer Fear is the only reason
You never thought
That you'd see me in another season
Now I feel the need to make you suffer
