Suffer

Sevendust

Slip and give a fake Let you feel a little stronger

My eyes awake

You think I'm rollin' overYou wonder how I feel

Now that you're under

You can't breathe

Can't hold it any longerI'll, I'll make you sufferFear is your only reason

You never thought

That you'd see me in another season

Now I feel the need to make you sufferNow you see the face

Of the one that took you over

You can't believe

How it ended up, you stumble I'll never let you have a chance

Now you wonder

You can't breathe

Can't hold it any longerFear is your only reason

You never thought

That you'd see me in another season

Now I feel the need to make you sufferFear is your only reason

You never thought

That you'd see me in another season

Now I feel the need to make you take itThink what you want, I've always seen

The shade of your color scheme

I cut through your bullshit talk

I stomp on your ***** up walkFear is your only reason

You never thought

That you'd see me in another season

Now I feel the need to make you sufferFear is the only reason

You never thought

That you'd see me in another season

Now I feel the need to make you suffer
