

Talk Dirty

MattyB

Get jazzy on 'emPass that mic that I get on... International
VIP at my concert baby... sittin' comfortable
But I know what the people like
The beat that hits right
I've got gasoline on my lips like baby
You know I'm 'bout to igniteBeen around the world don't speak the language
But the beat don't need explainin'
All I ever need to understand is
This music...Drops dirty to me (repeat x 4)
Get jazzy on 'emI know the words to your songs
Love how you sing them
We've got this music turnt up
It's like we're screamin'
But I know what the boys they like
A girl that sings nice
I've got gasoline on my lips like baby
You know I'm 'bout to igniteBeen around the world don't speak the language
But the beat don't need explainin'
All I ever need to understand is
This music...Drops dirty to me (repeat x 4)Uno... Find a song that we know
Dos... We can tag team the beat yo
Tres... Kick the verse back to me tho
Quatro... MB!Stay fresh, you know I don't rest
Sold out shows, I be like what's next
Gimmie the mic I'm known to wreck
Set to set a young exec... ha
International kid on deck
Every picture I take I pose a threat
Little vet but what you expect
Beat so sick I had to show respect
Anyway everyday I'mma keep shinin'
Summertime's mine told you I keep grindin'
Anyway everyday I'mma keep shinin'
Summertime's mine told you I keep grindin'Been around the world don't speak the language
But the beat don't need explainin'
All I ever need to understand is
This music...Drops dirty to me (repeat x 4)
