

So Divine

VenueConnection

Hanging out with some friends
Coming from far away
Searching for the right place
Where we could stay

Finally we found it
A perfect space to sway
Everyone was dancing
And the vibes were great

Then I saw you there
Looking at me
Couldn't wait a minute
To get closer
When I talked to you
I found out that
We were meant to be

When I looked into your eyes
I was quickly mesmerized
It wasn't hard to realize
You were just one of a kind

Driven by the music vibes
I made the best decision
I came to find my twin soul
Following my intuition

So here we are right now
Living life our way
Making grooves together
And surfing through the waves

When I saw you there
Looking at me
Couldn't wait a minute
To get closer
When I talked to you
I found out that

We were meant to be

When I looked into your eyes
I was quickly mesmerized
It wasn't hard to realize
You were just one of a kind
