

# When it Comes to You I'm Lazy

[Danielson](#)

I lay my head on your thighs  
And close my eyes  
And think of  
All of our daysFast moving months  
They pass us by  
For me things take time  
To seep in, into this mindAll over this place  
My opinions flyWe went blind  
Into this standing  
No pattern to follow  
Only, go here nowAll over this place  
I am not my ownI want to be just like you  
And I, I want to be free on my insides  
And prefer to raise others  
Above, above myselfWhen you're asleep  
I miss you the most  
You're already five years  
I feel tossed to and froAll over this place  
Playing is calling my namePapa, papa, papa, papa  
Papa, papa, papa, papa  
Papa, papa, I am not my ownAll over this place  
Playing is calling my nameI want to be just like you  
And I, I want to be free on my insides  
And prefer to raise others  
Above, above myselfWhen it comes to you Ive been lazy  
But now I need you  
I put down myself just to hide  
Right behind, oh you, youWhen it comes to you Ive been lazy  
But now I need you  
I put down myself just to hide  
Right behind, oh you, youI want nothing  
Of the world in me
