

# Goodbye To You

## Ed Sheeran

Hey, can you hear me  
I just wanted to let you know hmm  
I hope you can hear what I write to you  
how could I say goodbye to you  
when I'm a life that came out of the inside of a life  
that was inside of  
you  
I gotta respect the way you provided food, for the  
whole fam you  
came over a moon rush supporting a mar jays old man,  
cold double 8, 8 kids bare wheels plus racists full of  
hatred in your own plant , 3 jobs in a day , rest in  
life in you working but you were never stressed free  
just locked in a cage slaving , they said they were  
gold in the pavements but you came and saw the road to  
amazement , broke your heart but still you were prone  
to last and your sorrow was over fast , I hope your  
listening right , I still think of you every Sunday no  
one can top your chicken and rice, even through the  
darkness times you held us all up cause your vision was  
bright I knew your strength was your wisdom inside ,  
you never let anyone see your heartache you just got  
on with it , anyone tells me that they knew you said  
you were beautiful and your words you would stand  
strong with it. Cause they were like warmth on a winter  
night but I was just too young to go on with it and  
there something's I could try to do but it's an  
impossible task for me to even try and say goodbye to  
you , I couldn't do that , I owe my life to you .  
And of the pieces of my soul because I need a sign I  
hope this pain will heal in time you know I never want  
to be alone ohh  
I can see the stars as a cold wind greets the air and  
will you think of me up there, can I say goodbye to  
you? and paint the stains of the teardrops down my face  
or feel the chill of your warm embrace. Can I say  
goodbye to you ohh  
I think you phoney I was younger with the knowledge of  
things that I know now I would be by your side when you

needed me instead of asking you 'Nan can I go out'  
standing in a road with the gangs that I know now ,  
everyone's missing you loads , Jessica's grown up ,  
warren Lauren and Alex are fine and imp living with  
hope , it's been a while since I've seen c and the  
mouths I miss seeing and being a family and us agreeing  
with smiles how it used to be as a child but as time  
goes by the bridge seems longer family problems have

never been funny , in my heart the only one that dissed  
me was Sonia she took all our inheritance money , left  
the rest of us to pick up the pieces . i never forgive  
the way she betrayed us , there ent a big enough reason  
before I sell out my fam ill be giving up breathing ,  
but I guess that everyone's different or should I say  
no one's perfect she had happiness in front of her but  
chose to ride the wave that no ones surfing . Since you  
gone the foundations crumbled so building it back up is  
my next step I got all the bricks and the cement but  
it's hard when it's done I don't know what to expect,  
so give me the strength that I need to perform this  
task make it right I must do and I ask cause I trust  
you it goes way beyond a song when I say I love you.  
And of the pieces of my soul because I need a sign I  
hope this pain will heal in time you know I never wanna  
be aloneeeeeee

I can see the stars as a cold the wind greets the air  
and will you think of me up there can I say goodbye to  
you? and paint the stains of the teardrops down my face  
or feel the chill of your warm embrace. Can I say  
goodbye to you ohh

It's just for now so I should hush I'll never get  
enough I'll see you when I see you but I miss you ohh  
how I miss you , It's just for now so I should hush  
I'll never get enough I'll see you when I see you but I  
miss you ohh how I miss you.

there ent enough words to describe how sorry I am for  
the pain that I caused sorry for when I stuck up my  
own blood we were young he said I was rape and he broad  
and for the day police came to the door , I'm sorry for  
being such a bad youth stealing from your purse and  
making you mourn , I never been able to say this  
before cause I've was so inconsiderate you love me  
unconditionally and I took advantage of it like a idiot  
not seeing the pure soul that I was living with I

really hope that you can forgive me , you going away  
was a punishment but I won't let go I'm holding you  
with me but I still fight the emotions within me  
You see the stars as the cold wind greets the air and  
will you think of me up there can I say goodbye to you  
and paint the stains of the teardrops down your face  
feel the chill of your warm embrace can I say goodbye  
to you

I can see the stars as a cold wind greets the air and  
will you think of me up there can I say goodbye to you  
and paint the stains of the teardrops down my face or  
feel the chill of your warm embrace. Can I say goodbye  
to you ohh
