

Genetic Design For Dying

Aiden

Dear mother, I am lost and the damage has been done
I'm in love with my old century fix and this needle can't be wrong
But I wonder where do we go from here?
Because we're never coming home
The sequel to this nightmare lasts forever, forever
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
I'm not scared at all, so let's walk away
I'm not scared at all, so now walk away
Dear mother, now beyond the grave you're the soul that wants me
Front row with a cigarette, you're the ghost that haunts me
But I wonder, I'm too fucked up to come home
I swear this heart was made of stone
I won't pretend that everything's alright when it's not
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
I'm not scared at all, so let's walk away
I'm not scared at all, so now walk away
Wake me now, drive faster, make me now a disaster
Take me now, live after and walk away
Wake me now, drive faster, make me now a disaster
Take me now, live after and walk away
Can you design living through hell and back again?
It's the life that's killing you, walk away, friend
Can you design living through hell and back again?
It's the life that's killing you, walk away, walk away
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
So one last goodnight with this painted picture in our minds
The voice inside that sings tonight
