

# Ride With Me

## Blue Cheer

(Tony Rainier)

Blood runs hot around your neck

    No matter what you do

The evening's cold, The nighttime sweats

The strangest colors of blue. You want it hard

    You want it fast

    You give it all you got

    Make no mistake

    The time will last

Just give it your best shot. They say we're young and we don't know

    They say we don't have a clue

    The price you pay to live your life

The shit they toss to you! You want it hard

    You want it fast

    You give it all you got

    Make no mistake

    The time will last

Just give it your best shot. Ride with me to the sun

    Ride with me to the dawn

        Ride on!

        Ride on!

        Ride on!

Ride with me to the dawn. The blood runs hot all down your legs

    No matter what you do

    The price you pay to live your life

The shit they toss to you! You want it hard

    You want it fast

    You give it all you got

    Make no mistake

    The time will last

Just give it your best shot. Ride with me to the dawn

    Ride with me into the sun

        Ride on!

        Ride on!

        Ride on!

Ride with me for the dawn.
