Suck the Knife (Acustic)

The Crazymen

Terror is in your eyes
Afraid to loose this life
The knife is stabbing
Time to grab it
Like Roger RabbitRef. Suck The Knife or it will hurt you,
It will destroy, it will desert you,
You gotta know you hold the key
To make this fear your enemyThis world is going down
I'm acting like your clown
I just try to make this funny
Instead of dying for the money
