Hey There Man

Speakeasy

hey man, you got what you wanted than some
hey now it was good to see you in florida
hey now we're reaching as high as we can
hey there man

hey there man
come from different lands
here we stand

do you remember drinkin' the wine
i knew you from hanging with lad and all his friends
all night...next day
i've said all that i needed to say

blisters on my feet
ain't got much money
and it don't bother me

hey there man
come from different lands
here we stand

out right

all night...next day
i've said all that i needed to say

you cant see through painted glass
the landscape looks the same
don't let this moment pass

hey there man
come from different lands
here we stand

do you know how long its gonna be
before you turn to the same page as me
don't you save it all for something else
reach high, pull it off the shelf

ohhhhhhhhhhh!!!
yeahhhhhhhhhh!!!
