

# Hey There Man

## Speakeasy

hey man, you got what you wanted than some  
hey now it was good to see you in florida  
hey now we're reaching as high as we can  
hey there man

hey there man  
come from different lands  
here we stand

do you remember drinkin' the wine  
i knew you from hanging with lad and all his friends  
all night...next day  
i've said all that i needed to say

blisters on my feet  
ain't got much money  
and it don't bother me

hey there man  
come from different lands  
here we stand

out right

all night...next day  
i've said all that i needed to say

you cant see through painted glass  
the landscape looks the same  
don't let this moment pass

hey there man  
come from different lands  
here we stand

do you know how long its gonna be  
before you turn to the same page as me  
don't you save it all for something else  
reach high, pull it off the shelf

ohhhhhhhhhhhh!!!

yeahhhhhhhhhh!!!
