Young Alien Types

Bis

Your every action is a positive action
And being on the outside is
Just part of the attraction
I won't stop screaming even
If the doors open for aliens
I won't apologize 'cos
The way to creation is always destructionWe're the ones who feel insane
We're the ones who won't desert you
There's nothing sacred in our name
All for one we are young aliensAre you a young alien?
Do you feel like you're on your own?
We are the young aliens
We move through computer and phoneI won't stop screaming even
If the doors open for aliens
I won't apologize 'cos
The way to creation is always destructionWe're the ones who feel insane
We're the ones who won't desert you
There's nothing sacred in our name
All for one we are young aliensWe're the ones who feel insane
We're the ones who won't desert you
There's nothing sacred in our name
All for one we are young aliensWe are young aliens
They think we don't exist
But can we count on you
To add to our list
Just keep the secret
You're gonna need itWe're the ones who feel insane
We're the ones who won't desert you
There's nothing sacred in our name
All for one we are young aliensWe're the ones who feel insane
We're the ones who won't desert you
There's nothing sacred in our name
All for one we are young aliensI don't want to spend my life pretending, life pretending I'm you
