

The Gathering of the Clouds

Anathema

Searched the whole world
Found I can't compare
(But we're here, cause we're here And there's nothing to fear)Time is not what it would seem
The life we live is like a dream
Realase belief, let it wash over me
Let love reveal what I feel, what I feel, what I feel
(All that I 've seen
All that I feel
All I could be
Is happening to me
All that I 've seen
All that I feel
All like a dream
What's happened to me?) [3x]Searched the whole world
Found I can't compare
(Fight for what you believe in
Dare to live your dream In this life don't be afraid of yourself
Don't be afraid)
Searched the whole my love
Found I was been going wrong
(Fight for what you believe in
Dare to live your dream In this life don't be afraid of yourself
Don't be afraid)Time is not what it would seem
The life we live is like a dream
Please believe
Let it wash your agony
Let love reveal what I feel, what I feel, what I feel
(All that I 've seen
All that I feel
All I could be
Is happening to me
All that I 've seen
All that I feel
All like a dream
What's happened to me?)
