

# Somebody Up There Likes Me

Reba McEntire

I can't get used to the hustle  
I try to keep my actions straight  
I get caught in the bustle  
I do things I really hate  
Just when I think I'm sinking  
I hear a voice inside my head  
Says, "Don't do what you're thinking  
Send your thoughts to me instead"  
Somebody up there likes me  
Somebody up there knows what I need  
And when my worldly head spins around  
He sends His love down  
You know I'm only a human  
That's what I always say  
It's just excuses  
So I can do things my own way  
But, when I fall and I stumble  
I know I will be saved  
No, my world won't crumble  
I'll make it through the hardest days  
Somebody up there likes me  
Somebody up there knows what I need  
And when my worldly head spins around  
He sends His love down  
I wish I'd known all along  
But it's much better late  
Than to never  
Know you're wrong  
Somebody up there likes me  
Somebody up there knows what I need  
When my worldly head spins around  
He sends His love down  
Somebody up there likes me  
Somebody up there knows what I need  
When my worldly head spins around  
He sends His love down  
He sends His love down  
Somebody up there likes me
