Where the Hell Is Mike Sinkovich

Less Than Jake

I've never known what make you get up and go
and what pushed you over the edge,
when we were upon the roof yeah, yeah yeah was it the truth yeah
when you said you never made a single difference.
Did you get it in your head
that things are better left unsaid
when you up and left town?
Did you need to rearrange
or did you need to make a change
rather than just rotting in the place we used to hang around?
And I k now that things have gotta change,
I know that your never coming back to this town.I've never known what make you get up and go
and what pushed you over the edge,
when we were upon the roof yeah, yeah yeah was it the truth yeah
when you said you never made a single difference.I wonder where you've gone or who your with
I still ask myself
where the hell is Mike Sinkovech?
