

Blinded

David Usher

Turn me out then turn me on
Pretty flower cannot you tell me
What's become of who we are
Only asking what you'd like tonight We'll take America
Just shake my tits and ass
Yeah, we'll go far And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded Here we want to try
But I can't try to be as plain as daylight
Looking to the world
But we were always blinded Sell a little bit to you
A circus sideshow but the makeup's shining through, it's not so bad
Is there anyone to know?
Forget my politics, just sex me 'til I'm done, it's not so hard And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded Here we want to try
But I can try to be as plain as daylight
Looking to the world
But we were always blinded And all the stars are out for you
And everybody's hiding here
And all the stars have come unglued
But everybody, everybody's changing We're changing
We're changing And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded Here we want to try
But I can't try to be as plain as daylight
Looking to the world
But we were always blinded, always blinded And all the stars are out for you
And everybody's hiding here
And all the stars have come unglued
But everybody, everybody's changing We're changing
We're changing Thank you
