

Rainbow

South Border

Fallin' out, Fallin' in
Nothing's sure in this world no,no
Breakin' out, Breakin' in
Never knowin' what lies ahead

we can really never it all
no,no,no

say goodbye, say hello
to a lover or friend
sometime we never could understand
why some things begin
then just end

we can really never tell it all
no,no,no

Refrain:

But Oh,can't you see
that no matter what happens
life goes on and on
so baby,just smile
coz i'm always around you
and i'll make you see
how beautiful life is
for you and me

chorus:

take little time, baby
see the butterflies colors
listen to the birds that were sent to sing
for me and you
can you feel me?
this is a wonderful place to be
even if there is pain now
everything would be alright
for as long as the world still turns
there will be night and day

can you here me?
there's a rainbow always after the rain

ohh,woah..

hittin' high,hittin' low
win or lose you should go
yeah,yeah

getting warm,getting cold
weather could be so good or bad
but baby this is life now don't get mad
no,no,no

coz oh,can't you see
(repeat refrain and chorus)

Bridge:

Life's full of challenges
not all the time we get what we want
but don't despair my dear
you'll take each trial
and you'll make it through the storm
cos you're strong my faith in you is clear

so i'll say once again this words
wonderful and let us celebrate life
that's so beautiful, so beautiful
(repeat chorus)
