Put a Label on It

Ryan Follese

You've been peeling back the label
On that long neck bottle
For ten minutes now, spit it out
You've been drinking up the courage
I'm watching your wheels turning
So just lay it out, what's it about?
I think I know where this is going
And it's gonna be a big change
I can read you like a book, girl
And we're on the same page
So you tell your friends and I'll tell mine
We both know it's coming
It's too hard to hide
Can't wait for another minute
Let's go and get it over with
Acting like it isn't when we know it is
I think it's time we define the relationship
You're all that I ever wanted
Let's go and put a label on it
Know we took a little time
There's more clothes of yours than mine
In my closet now, I don't know how
We didn't do this sooner
Yeah, there ain't nothing cooler than having you around
I like the way you're smiling
When you're looking at me that way
I see it written on your face, girl
We're on the same page
So you tell your friends and I'll tell mine
We both know it's coming
It's too hard to hide
Can't wait for another minute
Let's go and get it over with
Acting like it isn't when we know it is
I think it's time we define the relationship
You're all that I ever wanted
Let's go and put a label on it
We might catch a little hell for this
Cause it ain't no secret

They've been telling us what this is
So you tell your friends and I'll tell mine
Oh, we both know it's coming
It's too hard to hide
Yeah, we do
So you tell your friends and I'll tell mine
We both know it's coming
It's too hard to hide
Can't wait for another minute
Let's go and get it over with
Acting like it isn't when we know it is
I think it's time we define the relationship
You're all that I ever wanted
Let's go and put a label on it
Me and you, you and me
Let's put a label on it, baby
Let's make it official
Me and you, you and me
We can change our status
